

2025 IMPACT REPORT

positiveimpactforlife.org

Message from Executive Director

I hope this message finds you well and inspires you as we reflect on the transformative work we've accomplished together. Over the past year, our School Support for Success Tutoring Program has served as a beacon of hope and opportunity, providing free tutoring and mentoring to students in grades 4 through 8 at five different tutoring sites.

Additionally, we have expanded our educational initiatives to include a Summer Reading Program designed to help maintain and strengthen reading skills over the summer months.

Through our Family Empowerment Program, we've broadened our offerings to include financial literacy programs for both adults and youth, as well as organized community wellness events that connect individuals with essential resources, enriching the lives of families in our community. The core of Positive Impact for Life's Family Empowerment Program focuses on both Education and Health. This initiative is dedicated to uplifting at-risk students and their families, promoting personal growth and instilling a sense of positive self-worth.

By concentrating on education and wellness, we are laying a foundation for a brighter future where families can thrive together. Our commitment to Community Wellness initiatives has further supported families in navigating mental health challenges, providing them with the necessary tools for success. We embrace a family-centered approach, ensuring that our programs resonate deeply with students and their families, enabling them to reach their fullest potential.

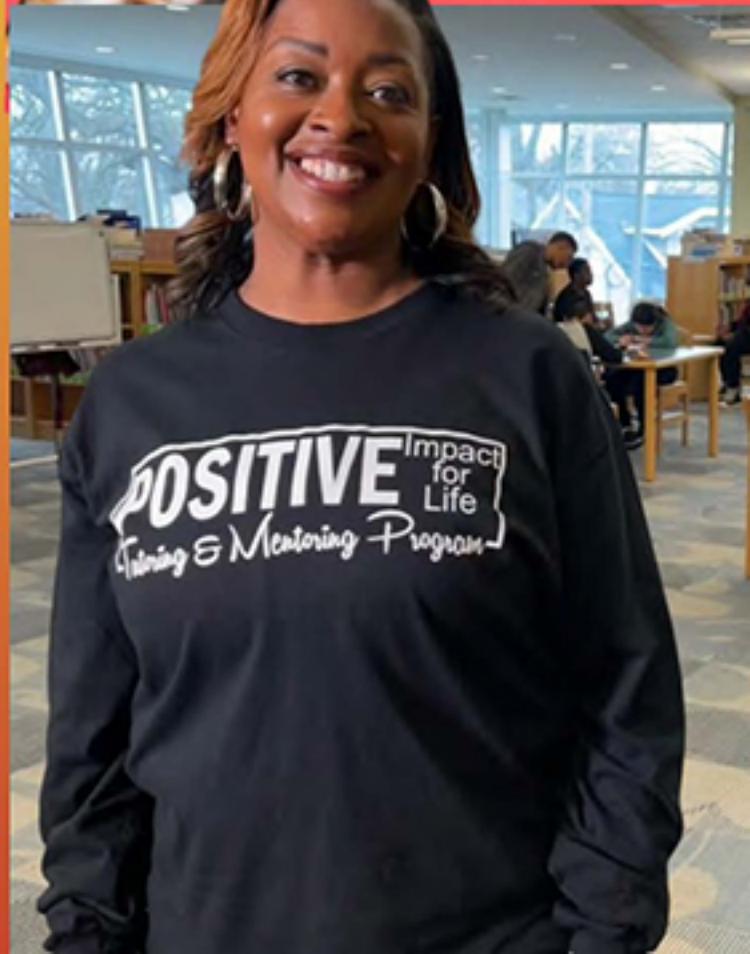

As we reflect on our journey, we feel immense gratitude for your unwavering support. Your generosity has been instrumental in driving meaningful change and creating lasting impacts in the lives of those we serve. We invite you to explore our impact report, where you'll find inspiring stories and tangible outcomes from our collective efforts.

Together, we are making a difference--one family at a time.

With Heartfelt Gratitude,

Malique Grear

Positive Impact for Life (PIfL)

Positive Impact for Life is a non-profit organization committed to giving back to the community. Our mission is to transform lives by providing practical tools through education and effective solutions for everyday living. Established in 2018, we strive to uplift children and families facing educational inequality, trauma, and the loss of hope. Our services are delivered through two main pillars: Youth Development and Community Wellness, as we firmly believe in the power of personal healing and family empowerment.

Our first pillar, Youth Development, offers academic support at five tutoring sites to at-risk students through after school tutoring, mentoring services, and youth leadership training.

Our second pillar, Community Wellness, connects individuals with licensed therapists through

complimentary self-care workshops. These workshops tackle essential topics such as anxiety and depression, grief and loss, suicide prevention, and trauma management. We foster a safe environment for discussing self-care needs, alleviating the burden of navigating through complex systems. Additionally, our Community Wellness events link participants to local resources, providing education and support to undeserved communities.

In the fall of 2022, we proudly launched our Family Empowerment program at no cost to participants. By integrating our two pillars of service, we developed a program that employs a family-centered approach focused on fostering educational achievement and community wellness, ensuring that both students and their families can reach their fullest potential. Moreover, we have expanded our educational initiatives to include a summer reading program designed to help bridge and maintain reading skills throughout the summer months.
